OPERATION CHILLOUT

No Borders - No Boundaries

Did you know?

Recent reports say there may be more than 7,000 Military Veterans in NJ who need housing, medical and employment assistance.

CHILI COOK-OFF RAISES FUNDS FOR HOMELESS VETS

Thanks to Nancy Duthie, more than 120 bikers and friends sampled world-class chili recipes and raised funds to help homeless Veterans living on the streets, in shelters, hospitals and half way houses in New Jersey.

Nancy Duthie is one of those rare talents whose life could have taken many directions - all successful! She finds herself in the company of a choice few in the entire world - a woman Harley Davidson Dealership Manager. "I started as a marketing manage in San Diego for Harley, then I came back East to try my hand at running one of the best dealerships in the USA. Fifteen yeas in some jobs would feel like a prison sentence - but to me - I couldn't find for a better gig anywhere". The **Tramontin Harley Davidson** dealership is truly a legend and will celebrate it's 100th anniversary in 2015. It started out in Clifton, NJ in 1915 and many generations of bikers purchased a Harley from this iconic family owned business. In fact, today's Tramontin reigning matriarch - Gloria (age 87) recently led a biker clinic for women riders, and more than that

- she rode her own Harley from Clifton to Hope to lead the workshop! Now that's as genuine as it gets! "Riders and their friends are generous people by nature. We have sponsored many charity events for many good causes. Helping our wounded warriors - our homeless military veterans is a very special cause for bikers." Across the USA biker groups dedicate their time and money to helping our Vets in many ways but Nancy came up with a fun and delicious event - world class chile chefs came from all over NJ, NY and PA to compete in a chili cook-off to raise funds for the **OCO 2012 Summer Homeless Veterans Outreach Campaign**. With more than 7,000 homeless Vets across the state, much needs to be done to secure their safety, provide for temporary emergency care and get them back on the road to recovery. *Thanks!*
