NET PROCEEDS WILL BE DONATED TO THE CPL. VISNU GONZALEZ PROJECT

Visnu was born in Santa Domingo, Dominican Republic on January 3, 1983. On September 10, 2001 at the age of 18 Visnu joined the United States Marine Corps On April 21, 2004, then 21 year old Cpl. Visnu Gonzalez was wounded in action and was paralyzed from the chest down when a sniper's bullet tore through his cervical spinal cord in Fallujah, Iraq. A second round hit an artery and nearly ended his life. After many years of therapy Cpl. Visnu is now living in his own home in New Jersey with his wife and mother. His challenges are ever present. For over 10 years the Corporal's life has been either lying in his bed or sitting in his wheelchair. This in itself creates additional challenges and other medical issues. Being a quadriplegic he is forced into a life of inactivity which brings on continuing medical issues. Due to the inactivity imposed upon him he continues to lose bone density and strength to name just a few issues. Earlier this year through the contacts of the Veterans Chamber of Commerce-NJ, a donor bought and installed in the Corporal's home a specially designed Robotic Mobility Device from TEK-RMD at a cost of \$22,000.00. In partnership with the Central Jersey Leatherneck Association and the Roselle Park Volunteer First Aid Squad, we are holding this event to raise additional funds to help with his personal and medical needs.

This is the fourth year that this event has been held to help our disabled veterans. It is strongly recommended that Advanced Reservations be received no later than August 20, 2016. Seating is limited to first come – first serve. Tickets will not be available for purchase on the day of the event.
